## REPORT OF THE PUBLIC LIBRARY

---

Through the year the opportunities of the library have been available for the use of the patrons and the room has been open excepting during unfavorable weather.

Several have remembered the library with gifts of magazines and books. The State of New Hampshire has sent copies of "Public Acts and Joint Resolutions of the Legislature—1955" and the "New Hampshire Reports of the Decisions of the Supreme Court." Vol. 7, 1954-1955.

We record our feeling of sorrow at the passing of our faithful librarian, Mrs. Sadie A. Langmaid, who cared for the library for many years.

The trustees have received \$150 from the town and plan to meet to determine what is best to do in the future.

## CHICHESTER FIRE DEPARTMENT REPORT

---

As Chief of the Volunteer Fire Department for 1955, may I, on behalf of the present members, dedicate this report to the memory of six firemen who have passed away since this organization was formed twenty years ago. These six: John Langmaid, Edward Edmunds, Dean Ordway, Winfred Pichard, C. B. Lovering, and Rawley Beals were among the twenty-four charter members who met at the Town Hall on the evening of January 31, 1936 and drew up the by-laws which, with little change are still being used by the Department at the present time.

During the year of 1955 two desks have been made for us by our Past Chief, Charles Call. A fire escape has been installed on the east side of the building for the safety of those using the social rooms. The firemen have received and installed in the Fire Station, the transmitter and receiver which we ordered some time ago in cooperation with the State Civilian Defense Agency. This will be used as a base station for our department and will also be used, if needed in an emergency, by the Civil Defense Units. We are allowed by the Federal Communications Commission to have twelve operators for this station and the applications for these licenses have been made. A new fog nozzle and three hundred sixty-eight feet of new one-and-one-half-inch hose was purchased with Town funds and has been placed on the trucks. Through the efforts of the Ladies Auxiliary, a counter top, shelves, cabinets, and inlaid linoleum have been added to our kitchen. Kitchenware, dishes, trays, silverware, and towels were also donated by this group. May we extend our sincere thanks to the ladies for their efforts on our behalf.

The Dept. was called out during the past year for 4 chimney fires, 1 house fire, 1 grass fire, 1 false alarm,

and 1 stand by request. We also assisted at 1 building fire and 1 brush fire out of town.

In closing may I extend to you a cordial invitation to visit with the Fire Dept. at any of our monthly meetings, which are held on the last Monday of each month at 8:00 P.M. at the Fire Station.

Yours respectfully,

SHIRLEY A. MARDEN

## BE A GOOD CITIZEN — COOPERATE

Smoking and debris burning caused more than 50 percent of the forest fires occurring in the state of New Hampshire in 1955 — 235 fires out of a total of 463 originated from these two sources. Lighted smoking material and matches thrown from moving vehicles along the highway or dropped by fishermen, hunters, hikers, berry and flower pickers accounted for 26 percent; debris burning in the wrong place or at the wrong time by those who failed to heed all pleas for safety or refused to recognize the logical, sensible rules and regulations set up under legislative authority governing the use of fire in or near woodlands accounted for more than 24 percent. This is inexcusable.

Everything possible is being done officially to remedy the situation. Since 1909 there has been a statute on our law books which requires everyone to secure written permission from the local forest fire warden before starting a fire in or near woodlands or where fire can be communicated to woodlands, unless the ground is covered with snow. A never ending program of educational work is being carried on by your local warden and state officials to inform the general public both of the value and necessity of securing the required permit for such burning. Much progress has been made, but there are still many who fail or refuse to cooperate. The value of our permit system was definitely proven in this district during the 1955 calendar year. Local wardens issued 3,864 permits for debris burning fires. That's a lot of permits. The records show only 2 permit fires got out of control. This proves several things — while wardens were liberal in the issuance of fire permits, accommodating every applicant so far as possible, they were cautious, following closely directives outlining overall policy governing the issuance of burning permits and thoroughly instructing permit users. The latter, too, fully appreciating their responsibility in

using their permits, governed themselves accordingly. Result? Much burning done legally and safe.

But what of the smokers? Despite all the efforts of those officially charged with the responsibility of preventing fires, too many were careless or thoughtless in disposing of smoking material and matches. Why? It is difficult to say. Autos are now equipped with ash trays. Why not use them. The crushing out of a cigar, cigarette and the complete extinguishment of matches before being discarded is an easy chore.

If the costly habits of the careless and indifferent smoker and debris burner could be overcome, more than half of our annual forest fires would be eliminated. Will YOU do YOUR share to bring this about?

### **REMEMBER**

1. Get a written permit from your local warden before starting your debris burning or camp fire. The law requires it.
2. Make certain they are dead out before leaving them.
3. Become a safe smoker by extinguishing smoking material and matches before discarding them.
